
LR decay is consistent with recovery, but does not isolate its cause
Seed 1234; updates 1-711; shading: preceding update already at LR floor
(a) Identical LR schedule at every size
Preceding optimizer LR (units of 0.001)
Fixed LR
0.0001
Current gradient / optimizer boundary
(b) Different late alignment at the same LR
Adjacent raw-gradient cosine (31-update mean)
14M
31M
70M
Current gradient / optimizer boundary
